

ARI

TALLBOY

design Emanuela Garbin - Mario Dell'Orto
2014

These are the accessory units in the Ari series; the wooden structure of the night table and the tallboy has been embellished by a matt lacquered 'galuchat' effect finish, available in two colors: Deserto and Laguna.

Precious version in fossil wood for the Ari collection's three-drawer nightstand and tallboy.

The drawers are fitted with a soft-close mechanism; the interiors are black stained; the handles and the base are polished black nickel.
