

## MONTENAPOLEONE

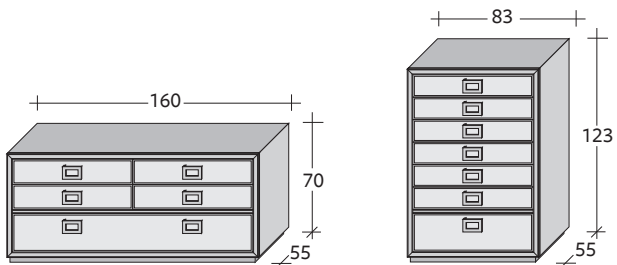

design Emanuela Garbin - Mario Dell'Orto  
2008

This is a series of storage containers in Makassar ebony. The pieces are characterized by an elegant process called "folding" that involves the use of large pieces of veneer and avoids any interruptions or unsightly joins on the surfaces of the furniture. The drawers have front panels in ebony, in leather or iguana-printed leather. They are fitted with elegant buckle-like handles. Trim and handles available in a polished chrome-plated finish or a matt distressed hand-brushed gray finish. The series is composed of a writing desk with stool, a chest of drawers with five drawers and a tallboy with 7 drawers
