

MOON

POUF
design Matteo Nunziati
2018

A series of circular poufs, characterized by eye-catching asymmetrical stitching. Available in three diameters (51, 81, 121 cm) with the option of covers in fabric or leather. The poufs can be accessorized with detachable and extremely stable trays (with a burnished brass or anodic bronze finish). The halfmoon shape of the trays perfectly complements the radius of curvature of the pouf.
