

NEW BOND

BENCH

design Matteo Nunziati

2019

The bench New Bond perfectly shows the distinctive tailor-made qualities of Flou in the processing of fabrics and leather. The padded structure rests on cylindrical metal legs in a matt burnished or polished black nickel finish and is embellished with cushions decorated by stylish exposed stitching. The structure and cushions are anchored by belts in tone-on-tone leather or in a contrasting color: a design detail to exalt the elegance. Completely removable fabric or leather covers.

LA CULTURA DEL DORMIRE.
